

year hour second orbit # "CloudSat" product data subset Data Set Identifier ("P" - production release)

2006224184641_01550_CS_2B-GEOPROF_GRANULE_P_R03_E01.hdf

Julian day minute reprocessing version # epoch #

The diagram shows a file name '2006224184641_01550_CS_2B-GEOPROF_GRANULE_P_R03_E01.hdf' with various parts labeled. Above the file name, labels 'year', 'hour', 'second', 'orbit #', '"CloudSat"', 'product', 'data subset', and 'Data Set Identifier ("P" - production release)' are connected to the file name by blue leader lines. Below the file name, labels 'Julian day', 'minute', 'reprocessing version #', and 'epoch #' are also connected by blue leader lines. The file name itself is segmented by underscores and hyphens, with some segments underlined in black.
